vitiligo, hair loss and scalp disorders. She is the founder of the Vitiligo & Pigmentation Institute and the Ancatel Hair Institute.

**FLORIDA**

➤ Heather Woolery-Lloyd, M.D.
Where: Miami; 305-532-5552
Web: drwoolleylloyd.com
Dr. Spotlight: Woolery-Lloyd is dedicated to finding solutions for pigmentation disorders such as uneven skin tone, melasma and age spots. She has even developed two skin care lines to address them: Specific Beauty (sold on HSN) and Dermatologist Strength Collection (sold on specific beauty.com).

**MARYLAND**

➤ Cheryl Burgess, M.D.
Where: Annapolis;

➤ Lisa Ginn, M.D.
Where: Chevy Chase; 301-656-5444
Web: skinatrg.com
Dr. Spotlight: With 12 years in the field, Ginn has become known for her innovative treatments, including microhydration and microdermabrasion followed by topical solutions that kill bacteria and minimize dark spots. She is an ultherapy master. The nonsurgical treatment tightens and smooths the skin.

Q

**MY SKIN IS BEGINNING TO SAG. WHAT CAN I DO TO GET THE FIRMNESS BACK?**

A

Sagging skin is inevitable but you don’t have to live with it. “We can tighten the skin with radio frequency devices that tighten collagen and elastic tissue,” explains Marcy Street, M.D. Lasers can improve tone of skin and fillers such as Juvederm, Restylane and Sculptra are often used to improve the appearance of sagging skin on the face. “These deposited fillers stimulate our own collagen and elastic tissue to give skin extra firmness.”

**CALIFORNIA**

➤ Wendy E. Roberts, M.D.
Where: Rancho Mirage; 760-346-4262
Web: wendyrobertsmd.com
